**Concord Twp. to
flush hydrants**

The Concord Township Fire Department will begin its Spring Hydrant Program on Sunday.

During this program the department will be flushing hydrants throughout the township between 8 a.m. and 6 p.m. Flushing will continue for about four weeks.

Residents may notice a slight discoloration of their water when flushing is being completed in their neighborhoods. Running water cold for a few minutes before use should eliminate any discoloration.

For details, call the department at 440-354-7508.
